Re: Fall 2008 Graduate Courses

Enclosed please find the Washington College fall 2008 graduate schedule and registration form for our Master's Degree programs in English, History, and Psychology. In addition, please note that information about Washington College's graduate courses in Education, which are ongoing in locations throughout Maryland, is online at <http://www.regionaltrainingcenter.org>. Students should register for Education courses at this site as well.

In order to guarantee timely textbook delivery, students should contact the Washington College bookstore in person or at <http://washcoll.bncollege.com> to place an order or check on books required for fall study. Students interested in pursuing a Master's Degree at Washington College should contact the Office of Graduate Admissions (410.778.7213 or ksack2@washcoll.edu).

Please note that no more than two graduate courses taken before or while applying for admission will be accepted toward the Master's Degree.

Enrolled students can check course registration status by logging into Web Advisor at <http://webadvisor.washcoll.edu>. If you are a current student and have not yet activated your Web Mail/Web Advisor account, please contact me. It is very important that current students can and do access these courses. Web Mail is our primary means for distribution of graduate program information. Please note that your Web Mail can be forwarded to another account if you prefer. Web Advisor is currently the only way to access grades earned at Washington College and provides a variety of additional information as well.

The academic calendar is available at <http://academics.washcoll.edu/calendar.php>. Please note these important dates for fall 2008:

Tuesday	September 2	Graduate classes begin
Monday-Thursday	December 1-4	Graduate classes end
Monday-Thursday	December 8-12	Graduate classes final exams

Again, please do not hesitate to contact me for more information or with any questions at 410.778.7213 or ksack2@washcoll.edu.
